

CS-455 Meeting Agenda

Date: 4/15

Time: 8:30 PM

Review of Last Sprint

- Review big decisions that were made
 - New coding assignments are out
- Review feedback given by team members
- Review any big things that got finished
 - First SDD revision

Team 1 Review

What did you get done?

What are you working on?

What are some roadblocks you have found?

Team 2 Review

What did you get done?

Sec 4 SDD

What are you working on?

Class modeling review

What are some roadblocks you have found?

Team 3 Review

What did you get done?

Section 5 of the SDD: Component Design

What are you working on?

May be making revisions to component design

What are some roadblocks you have found?

Leadership/CM Review

What did you get done?

Finished off SDD and received feedback from Jerkins - Joseph

Finalized tasks for the team and got those uploaded to Gitea. I also finished section 1 of the SDD - Zach

What are you working on?

Revising section 2.3 per Jerkins request - Joseph

Other class things, getting ready for graduation/job search, makeup quiz and reading - Ethan

The account settings page and my research paper for 410W - Aryaman

I am finalizing the SDD system diagram I have made and I am going to send it to the CM team to review. It is a little bit more extensive and will help with backend development. I am also working on backend development tasks that might need to happen. I plan on assigning some views to the CM team as well so we can get some rapid development going. Finally, I am planning an integration plan for all of the views that are being made so we can have a navigation flow. - Zach

What are some roadblocks you have found?

Senioritis is hitting hard - Ethan

That research paper is taking up most of my time - Aryaman

Moving into my new apartment is taking up a lot of time - Zach

TO-DO

Class Assignments

Quiz #12 on Ch 23-24, CI/CD and DevOps slides

Project Assignments

- Coding assignments due by Wednesday at midnight. This includes a review! Please reach out if you need help.
- We will probably be doing another revision of the SDD knowing Jerkins' habits.
- A new set of development tasks will be sent out to those who get their tasks approved.

Team Business

- There are still only 6 forked repositories and only 2 people have looked at their development tasks. If we want to get even somewhat done we have to start development. Reach out if you are falling behind and we can make things work.

Other

None
