

# CS-455 Meeting Agenda

Date: 3/4/2024

Time: 8:30 PM

## **Review of Last Sprint**

- Review big decisions that were made
  - Team split - Ethan
- Review feedback given by team members
  - Other classes are causing a delay in getting work done for this class-**Zach**
- Review any big things that got finished
  - *Nothing to report*

PRE-NOTE BEFORE WE START TEAM STATUS MEETINGS - **Zach**

## **Team 1 Review**

### **What did you get done?**

We reviewed the srs document and made some changes. Julia edited some parts of 2.2 and fixed the grammar. Chayton looked over the section 1 and corrected some grammar and added an acronym in section 1.3. Aryaman added an additional security requirement in section 3.3 and reviewed section 4 .

- Look into implementing IEEE definitions sent by Jerkins

### **What are you working on?**

Aryaman is working on section 1 of the CM document.

### **What are some roadblocks you have found?**

## **Team 2 Review**

**What did you get done?**

**What are you working on?**

Use cases are currently in progress  
Thomas - FOC, VCRD, PCRD

**What are some roadblocks you have found?**

Exams in this and other classes have limited our time to work on these

## **Team 3 Review**

**What did you get done?**

**What are you working on?**

**What are some roadblocks you have found?**

## **Leadership/CM Review**

**What did you get done?**

- **Zach:** Started an outline for 3.4 in the CM Doc; I should have that done by tomorrow. I also finished my use cases and started working on the use case diagrams. Those should be finished by Wednesday at 10 AM.
- **Aryaman:** Finished writing the purpose for the CM document.
- **Ethan:** Made a rough sketch of MVC architecture for our webapp.
- **Joseph:** Completed first draft of section 2 in CM Doc

## What are you working on?

- **Zach:** I have to finish the milestones for this project and plan out when we are doing what (CM 3.4). I also have to finish the use case diagrams.
- **Aryaman:** Currently have to finish the section 1 of CM doc.
- **Ethan:** Working on Sections 3.2 & 3.3 of CM doc
- **Joseph:** Working on use diagrams

## What are some roadblocks you have found?

- **Zach:** I need to take some hours off of my work load. I need to put more time into planning. Also, just learning stuff along the way.
- **Ethan:** I need to put more focus into this project, and I'll be able to now that I have internet. Like Zach, I'm also learning a lot of this stuff as we go.
- **Joseph:** I need to get a better grasp of what is currently happening within all groups.

# TO-DO

## Class Assignments

*(Assignments given to us by Dr. Jerkins separate from the project)*

- Quiz 7 - Ch 13, 14, and secure coding slides - **Ethan**

## Project Assignments

*(Discussing assignments related to the current sprint of project/sprint planning)*

- Final Release of SRS: March 6 at 10 AM - **Ethan**
- Architecture Modeling: March 6 at 10 AM - **Ethan**
- CM Plan (First Revision): March 6 at 10 AM - **Ethan**

## Team Business

*(Confirming team related issues and topics/assigning tasks)*

- Make sure you change your name in the Discord to your actual name please! - **Zach**
- We will be discussing who you choose as your “programming partner” on Friday.  
- **Zach**
- I will be reaching out to individuals who are not active in meetings. If this is one of your first meetings here, we value your knowledge and want you to contribute. Any recurring absences will be reported to Dr. Jerkins - **Zach**
- I know it seems like we’re just assigning work here, but this is just part of a large team project. In the future, we will be working with and taking tasks from peers as well as asking for help from them. - **Ethan**

## Other

*(Other information not covered)*

## Open Floor

*Put your name and what you want to talk about*

**Zach:**

- Check out the logo and document template I made!
- I have reached out to some alumni and some senior devs and got some resources for the time frame of the project so all is well!

- DM me your preferences for modeling. There are no promises that this is what you will get, but it will help me decide the spread for the team
- Leadership, meet me in the leadership chat room after this.

**Ethan:**

- In #architecture-modeling, I posted the rough sketch I made for team 3, but if anyone wants to comment on how it can be improved put them in that channel.

## **Next Meeting Time**

3/8/2024, 8:30 PM
