

## CS-455 Meeting Agenda

Date: 4/19

Time: 8:30 PM

Attendance: {Rachel}, Aryaman, Austin, Daivik, Ethan, Joseph, Thomas, Victor, Zach

### **Review of Last Sprint**

- Review big decisions that were made
  - First development milestone was moved to 4/24 because of other 4 level classes getting in the way
- Review feedback given by team members
  - A lot of 4 level classes are becoming overwhelming
- Review any big things that got finished
  - SDD got approved and many people worked on their issue descriptions! DB is also halfway done.

## **Team 1 Review**

### **What did you get done?**

Worked on the view description tasks

Issue #27

issue #28

Issue #29

Issue #30

Issue #31

### **What are you working on?**

Getting ready for development.

### **What are some roadblocks you have found?**

## **Team 2 Review**

### **What did you get done?**

Issue #26 - Implement User Authentication

Issue #32 - Implement Forgot Password View

Issue #33 - Implement Profile Settings View

### **What are you working on?**

### **What are some roadblocks you have found?**

## **Team 3 Review**

**What did you get done?**

**What are you working on?**

**What are some roadblocks you have found?**

# **Leadership/CM Review**

## **What did you get done?**

- Zach: Started development on DB and confirmed with Dr. Jerkins the proper architecture for referencing all models in the DB.
- Ethan: Created task description for both Bulk Student On-board View (Issue #51) and Add Student View (Issue #38), as well as commented and reviewed many of the ones currently submitted.
- Joseph: Created task description for view #31 and revised it to meet expectations.
- Aryama: Created task description for faculty dashboard view #30.

## **What are you working on?**

- Zach: With being about halfway done with the DB, I am still working on that and then I am going to start research on integrating Wt::Auth. I am also working on task description reviews and creating new tasks for backend development. Also, I need to work on the universal styling scheme (CAS-20).
- Ethan: Reviewing and commenting on any task descriptions that come in, as well as preparing for development once my task descriptions are approved.
- Joseph: Review of issues
- Aryaman: Fixing my task description and getting ready for development.

## **What are some roadblocks you have found?**

- Zach: I am having some issues with the Makefile since I am having to change it to reference all of our models. If anyone is a Makefile guru please help...

# **TO-DO**

## **Class Assignments**

- Quiz on chapters 26, 28, and cloud presentation.

## **Project Assignments**

- Task descriptions were due this past Wednesday. If you have not finished this, please do so we can get that reviewed.
- Development for current tasks are due on 4/24!

## **Team Business**

- Zach:
  - I talked to Jerkins and he recommends at this point we provide a minimum viable product. We might have to cut some views in order to do so, but I am currently looking into that.
  - Tasks that were not touched:
    - CAS-27

## **Other**

*(Other information not covered)*

## **Open Floor**

*Put your name and what you want to talk about*  
Ethan - CSV file format

## **Next Meeting Time**

4/22/2024 at 8:30 PM
