

CS-455 Meeting Agenda

Date: 3/22

Time: 8:30 PM

Attendance: Zach, Joey, Ethan, Austin, Victor, Thomas, Rajveer, Julia, Shivam, Daivik, Bharat, [Rachel, Aryaman]

Review of Last Sprint

- Review big decisions that were made
 - All teams have began work on modeling - **Ethan**
- Review feedback given by team members
- Review any big things that got finished
 - SRS approved and Gitea repo opened. Make sure to fork and clone down to your machine for when we begin work - **Ethan**

Team 1 Review

What did you get done?

Completed the view modeling task

What are you working on?

Reviewing the view models and the view architecture model

What are some roadblocks you have found?

Team 2 Review

What did you get done?

All tables finished and reviewed

New tables:

- Student

- Student Course

- Course

- Faculty

- Admin

What are you working on?

Thomas - compile tables together for finished model

What are some roadblocks you have found?

Team 3 Review

What did you get done?

Austin - Grammatical parsing of some requirements and use cases, defined some possible classes with attributes and methods. Created some UML class diagrams.

Victor - Grammatical parsing of SRS sections 1.4 (Password Reset, Admin Management), 2.2 (Classroom, Admin Management), 2.3.2 (DS through VACS). Created class diagrams.

Zach- I have not touched any of the classes yet, but that will be tonight after I get the repo set up.

What are you working on?

Austin - refining classes, noting relations between classes.

Zach - Classes and repo

What are some roadblocks you have found?

Zach- Time and im tired lol

Leadership/CM Review

What did you get done?

Defined views for team 1 and distributed work accordingly. - Joseph

Zach: Finished SRS with Rachel (thank you for the help). I was able to support 1 of the 3 teams in deciding tasks and I will be helping with some class modeling.

Aryaman: finished the wireframes

Ethan: Supported team 2 in deciding tasks.

What are you working on?

View architecture model - Joseph

Zach: I am currently designing and developing the repo with our directories and issues-board.

Aryaman: I will be helping out Joseph with the view architecture model

Ethan: Continued helping in Team 2 with the data modeling.

What are some roadblocks you have found?

Zach: Time and I'm tired lol

TO-DO

Class Assignments

- Quiz on chapter 19, 20, and CMMI slides on April 3rd (yay spring break)

Project Assignments

- New Software Design Document! - **Zach**
 - **TEAM 1:** Section 6 and 7
 - **TEAM 2:** Section 4
 - **TEAM 3:** Section 5
 - **CM TEAM:** Section 1, 2, and 3.1
 - We are going to hold off on section 3.2 and 3.3 until we get more design approved
- Tasks will be added to Gitea soon
- Testing/Reviewing:
 - **TEAM 1:** Review Team 2's data modeling tasks
 - **TEAM 2:** Review Team 3's class modeling tasks
 - **TEAM 3:** Review Team 1's view modeling tasks
 - **LEADERSHIP:** Leadership will be the "2nd review" that is required for it to get pulled. We will be the final phase before modeling is passed and merged into our document's folder (not created yet).

Team Business

- Fork the repository onto your computer - **Zach**
- Issue branch demonstration - **Zach**
- Team communication - **Ethan**

Other

- Enjoy your break or not reading for the quiz! If there is any reason you cannot work on anything let us know. I will be working the same amount I have been because I am simply working all spring break up until Thursday. - **Zach**

Open Floor

Put your name and what you want to talk about

Name branches like so in issues: CAS-9-<short description>

Next Meeting Time

3/25/2024, 8:30 PM
